MySQL

Git

Rest APIs

## Projects

### QR Docent: QR Scanning Mobile App

- React Native | React | Express | Node.js | Postgres
- Role: Head of Mobile Development
- QR-Docent allows users to scan a QR code next to an exhibit in a museum, to gain access to useful information. It also can generate music playlist for music related museums.
- QRdocent.com | <https://github.com/Mayank-Patel1/QRdocent>

### Habeuro: Habit Tracking App

- React | Express | Node.js | MongoDB
- Solo Project
- Habeuro is a simple to use habit tracker that provides informative data. With Habeuro users can pick Icons, choose colors, specify what days they want to complete habits, and many more.
- Habeuro.com | <https://github.com/danteedmonson/habit-tracking>

### Jot Fox: Note Taking App

- React | Express | Node.js | MongoDB
- Role: Head of Backend Development
- Jot Fox is a web application where you can take notes. Notes can have different characteristics such as a priority, category, etc.
- Fourscript.com | <https://github.com/FourScript/notetakingapp>

## Education

2019-05 -  
2021-12

### Bachelor of Science: Computer Science

University of Central Florida - Orlando, FL

- GPA: 3.80
- Awarded President's Honor Roll Fall 2020
- Dean's List Fall 2019

2016-08 -  
2018-12

### Associate of Arts: Computer Science

Valencia College - Orlando, FL

- Bright Futures Merit Scholarship
- Awarded Dean's List 2017
